The services that the Company will provide under the terms of this Agreement are as follows:

- (i) Risk Manager (Schedule 1);
- (ii) Discretionary investment management of the Investor Account (Schedule 2);
- (iii) C&M Wallet (Schedule 3);

together (the "Services"). The Investor understands that the Services are provided as a package and are not offered individually. Further information about fees and charges relating to the Services is set out in clause 11 below.

7. Client categorisation

7.1 The Services are provided on the basis that the Investor is a Retail Client as defined in the SEC Handbook. This means that the Investor is entitled to the protections that must be provided to Retail Clients under the SEC Handbook and under relevant legislation.

7.2 If an Investor desires to be re-classified then he needs to send the Company a written request; to info@candmassetmanagement.com. The Company shall consider such request at its discretion after reviewing the Investor's change in circumstances. The Investor is responsible for notifying the Company if his personal circumstances change.

7.3 The Investor shall be bound by the Client Categorisation Notice. Further details are available online at www.candmassetmanagement.com.

8. Assurances

8.1 The Investor agrees that:

- (i) the Investor's funds ("Funds"), according to clause 9.1 below, belong to the Investor and are free of any lien, charge, pledge or other encumbrance;
- (ii) the Funds, according to clause 9.1 below, are not the direct or indirect proceeds of any illegal act or omission or product of any criminal activity; and
- (iii) the Investor acts for himself and is not a representative or trustee of a third person.

8.2 The Investor warrants the authenticity and validity of any document sent to the Company during

- (i) the account opening process; and
- (ii) the life of the Investor Account.

9. Investor Money

9.1 Unless otherwise indicated, the Company will deposit any Investor Money in one or more segregated account(s) held with an investment-grade institution, separated

from the Company's money; this means that Investor Money is treated as belonging to the Investor and under no circumstances will the Company Use Investor Money, at any time, to meet any of its obligations. An Investor's claim will be against the Investor Money pool in general. The Company will exercise all due skill, care and diligence in the selection, appointment and periodic review of the institution where the Investor Money is deposited. It should be noted, that segregated account(s) will be established, maintained and operated according to the applicable rules and regulations. The Company will give instructions to the investment-grade institution(s) regarding the transfer and movement(s) of the Investor Money. If the Investor has an open position the Company reserves the right, at any time and at the Company's sole discretion, to set-off any unrealized losses incurred in respect of an open position against any of the Investor Money that is held by the Company to the Investor's credit. In effect, this means that the Company, based on the conditions referred to above, may transfer any part of any unrealised losses from an investment-grade institution to an account of the Company. At the same time, the Company may transfer any unrealised profit incurred as a result of an open position from a Company account to a Client Money account held in an investment-grade institution.

9.2 The Investor Money will be pooled with money belonging to other Investors so an individual Investor will not have a claim against a specific sum in a specific account, in the event of insolvency.

9.3 Once received, the Funds shall be deposited in an institution specified by the Company (the "Institution") on the Investor's behalf, segregated from any of the Company's funds.

9.4 The Company will not pay interest to the Investor in respect of Investor Money.

9.5 The Company may, from time to time, without the Investor's permission merge the Funds held in different Client Money Accounts; under no circumstances, does this imply that the Investor has the right to a credit facility.

9.6 The Investor has the right to withdraw, at any time, any part of the Funds on the Investor's Wallet, provided that there are Funds available. It should be noted that such request may take up to 3 (three) Business Days in order to be processed. The Company reserves the right to request additional information and/ or documentation to satisfy itself that the request is legitimate. In addition, the Company reserves the right to reject such a request if it deems that this may not be legitimate. The Investor accepts that under such circumstances there may be a delay in processing the request.

9.7 The Investor accepts that the Funds shall be deposited in the Investor's Wallet on the later date of either the Value Date on which the Funds are received by the Company or the Value Date on which the Funds are received by the Institution. The Funds deposited in the Investor's Wallet shall be net of any transfer fees or other charges incurred by or charged to the Company that are imposed by the Institution (or intermediary involved in the process) that holds the Funds.

9.8 Where any Funds required to be deposited by an Investor are deposited into his Investor Account and the Company suspects that the sender of the funds is not the Investor or his authorised representative, the Company may reject the Funds and return them to the remitter net of any transfer fees or other charges incurred by or charged to the Company, using the same transfer method as the one through which it originally received the Funds.

9.9 The Investor accepts that withdrawal of any part of the Funds shall be concluded using the same transfer method and the same remitter as the one which the Company originally received the Funds from. Under such circumstances, the Company shall return the part of the Funds requested without deducting any transfer fees or other charges incurred by or charged to the Company. All fees associated with the transfer and handling of funds shall be borne by the Investor and treated as part of their deposit.

9.10 The Company reserves the right to decline a withdrawal that the Investor requested using a specific transfer method and has the right to suggest an alternative.

9.11 If, at any time, the Company is not satisfied with the documentation provided by the Investor in relation to the withdrawal/deposit, the Company reserves the right to reverse to the remitter any part of the Funds net of any transfer fees or other charges incurred by the Company, using the same transfer method as the one through which it originally received the Funds.

9.12 The Investor accepts that the Institution may reverse any part of the Funds, for any reason; as a result, the Company shall immediately reverse the respective amount from the Investor Account net of any transfer fees or other charges incurred by or charged to the Company, using the same transfer method as the one through which it originally received the Funds. The Investor accepts that this may result to a negative balance in the Investor Account; under such circumstances, the Company may merge the Funds held in different Investor Accounts as described in clause 9.5, above.

9.13 The Investor accepts that any requests he wishes to make relating to the administration of the Investor Account shall be made through the Investor's Wallet at www.candmassetmanagement.com.

9.14 The Company shall take all reasonable steps to ensure that the Investor is informed regarding the progress of any requests referred to in the Investor Money section, specifically in relation to the expected processing time and the need for any, or any further, documentation that if not in place may delay the processing.

9.15 If at any time the Investor Account has Funds of less than USD 15 (or currency equivalent), the Company reserves the right to close the Investor Account and transfer the Investor's money to the Investor's Wallet at a fee, after notifying the Investor accordingly.

9.16 The Company reserves the right to close an account in connection with an unclaimed Investor Money balance and release any Investor Money balances from Investor bank accounts if:

- (i) there has been no movement on the Investor's balance for a period of six (6) years; and
- (ii) the Company has sent written notice to the Investor at the last known address informing the Investor of the Company's intention of no longer treating that balance as Investor money and giving the Investor twenty-eight (28) days to make a claim.

10 Negative Balance Protection Obligation

10.1 With effect from August 1st, 2018, the Company has become obliged to take steps to protect the Investor's Account from acquiring at any time a value of less than zero as a consequence of the trading of CFDs by the Company on the Investor's behalf.

10.2 With this in mind, the provisions of this Clause 10 shall qualify all other provisions of this Agreement that relate to the trading by the Investor's Account of CFDs and the manner in which the Company behaves towards the Investor's Account. The Company understands that it is required to provide from its own resources in relation to the protection of the Investor's Account from registering a negative balance, and that the Company cannot look to the Investor to contribute extra capital as a means of repaying any negative balance or value.

10.3 More specifically:

(i) The Company undertakes to monitor the placement of trading instructions in accordance with any mandate that it has accepted on behalf of the Investor, and to promptly advise the Investor if the Company is unable to implement a trading instruction at a given time on account of this causing the Investor's Account to register a negative balance.

(ii) Where the Company determines that the Investor's Account is registering a negative balance, the Company is:

(a) obliged to place moneys from its own resources into the Investor's Account for the temporary purpose of covering the negative balance;

(b) entitled to suspend further activity in relation to the Investor and his mandate to the Company for such reasonable period as the Company may determine (though without prejudice to the completion of transactions then in progress);

(c) should the Investor be unable or unwilling to discuss process under clause 10.3(ii)(c) with a view to this taking place within a reasonable timeframe, entitled to give notice to the Investor to terminate this Agreement.

10.4 If this Agreement should be terminated under clause 10.3(ii)(c), it is understood that the Company shall bear loss realised on the Investor's Account (though without

prejudice to the rights that the Company may have to claim on the Investor's estate if the Investor is bankrupt or insolvent).

11. Fees and Charges

11.1 The Company will charge the Investor fees for using the Company's order execution and discretionary investment management services. The fees and charges are calculated on the basis and at the rates shown and are payable as provided on the Website. For the avoidance of doubt, the Investor will also pay any other relevant tax or imposition at the rates applicable from time to time on such fees and charges. The Company reserves the right to change these rates from time to time and will notify the Investor of any such changes via the Website and/or via email.

11.2 The Company may deduct any amounts payable by the Investor to the Company from the Investor's Account. If the available funds are insufficient, the Company may sell assets held as part of the Investor Account to cover such charges.

11.3 The Company may pay (or receive from third parties), fees in relation to referrals of business except where prohibited by SEC Rules or US law. The Company is not obliged to account to the Investor for any such fees.

11.4 The Company may receive payment from or share charges with a third party. The Company is not obliged to account to the Investor for any such receipts. Further information about such payments or shared charges is available on request.

12. Intellectual Property Rights

12.1 The Company is the owner or the licensee of all Intellectual Property Rights used in the services provided to the Investor. Those works are protected by copyright laws and treaties around the world. All such rights are reserved. No provision of this Agreement shall be construed as assigning or transferring any Intellectual Property Rights to the Investor, and any use that the Investor is permitted to make of such Intellectual Property Rights is on the basis of a limited and non-exclusive licence strictly under the terms of this Agreement.

12.2 The Investor agrees to the Website Terms of Use which can be found on the Website.

13. Limitation of Liability

13.1 The Company shall, at all times, conclude Investor's transactions in good faith.

13.2 The Company accepts responsibility for any loss, damages or costs suffered or incurred by the Investor only to the extent that such loss arises directly from the Company's negligence, wilful default, fraud, and/or our deliberate and wilful breach of any duties which the Company owes the Investor under OCIE, regulations made thereunder or the SEC Handbook. The Company will not be liable for any other losses, damages or costs suffered or incurred by the Investor.

13.3 The Company bears no responsibility for any acts or omissions concluded by either a natural or legal person that provides the Company with information in relation to the execution of the Investor's transactions in financial instruments, unless such acts or omissions were the result of negligence or fraud on behalf of the Company.

13.4 The Company bears no responsibility for any loss of opportunity that results in reduction in the value of the Investor's transactions in financial instruments, regardless of the cause of such reduction, except to the extent that reduction occurred as a direct consequence of the Company's deliberate actions or omissions.

13.5 The Company has no responsibility to the Investor for the consequences of its compliance with the Negative Balance Protection Obligation.

13.6 The Company shall have no liability to the Investor in connection with the investment activity within the Investor Account whatsoever, including, without limitation, for transmissions that are inaccurate or not received by the Company, for any delay or defect in or failure of the whole or any part of the Company's Investment Platform software or any systems or network links or any other means of communication. The Company will have no liability to the Investor in the event that any computer viruses, worms, software bombs or similar items are introduced into the Investor's computer hardware or software via the Company's Investment Platform, provided that the Company has taken reasonable steps to prevent any such introduction.

13.7 If and to the extent that the Company is found liable for any losses or damages in relation to a transaction then, unless the Company is prohibited from limiting such liability by law, the maximum amount of the Company's liability will be limited to four (4) times the amount of commission or spread paid or payable by the Investor in respect of that transaction.

13.8 Unless the Company is prohibited from excluding such liability by law (for example, for losses relating to death or personal injury or caused by our fraud), the Company will not be liable for any direct, indirect, special, incidental, punitive or consequential damages (including, without limitation, loss of business, loss of profits, failure to avoid a loss, loss of data, loss or corruption of data, loss of goodwill or reputation) caused by any act or omission of the Company under this Investor Agreement.

13.9 The Company bears no responsibility for any loss incurred as a result of the acts or omissions of the Institution or its employees, including but not limited to instances of false or misleading information provided by the Investor.

13.10 The Company will take reasonable care in the assessment and appointment of sub-custodians, bankers, counterparties, agents and other third parties so far as relevant. The Company accepts responsibility for any loss, damages or costs incurred by the Investor only where these arise from the Company's negligence, wilful default or fraud in the assessment or appointment of such persons. The Company will not be responsible in any other circumstance for the actions of any such third parties.

13.11 The Company does not accept responsibility for any loss, damages or costs the Investor may incur as a result of any cause beyond the Company's reasonable control.

14. Company's duty to the Investor

No provision of the Agreement will be deemed to restrict, qualify or exclude any duty owed to the Investor under the OCIE or the SEC Handbook. The Company does not, however, owe the Investor any further duties except as expressly set out in this Agreement.

15. Complaints

15.1 Should the Investor have any complaints in relation to the services regulated herein, then an email should be addressed to the Compliance Officer at compliance@candmassetmanagement.com. The Company will aim to acknowledge the Investor's complaint promptly, investigate the circumstances and report the results to the Investor.

16. Netting

16.1 The Company may net or set-off all amounts due by the Investor to the Company immediately by deduction of such amount from the Investor's Wallet, which right shall extend to the ability to net across each Account and/or sub-account legally and/or beneficially owned by the Investor or in which the Investor has an ownership interest.

16.2 The Company's rights under clause 16.1 are subject to the Negative Balance Protection Obligation. However, with the Negative Balance Protection Obligation in mind, where the Client has two or more Investment Accounts, the Company is entitled to use its rights to net or set off positions between such Investment Accounts where one or more of them would otherwise be treated as acquiring or maintaining a negative balance position.

17. Securities Investor Protection Corporation

17.1 The Company subscribes to the Securities Investor Protection Corporation. The Investor may be entitled to compensation from the scheme if the Company is unable to meet its obligations. This depends on the type of business and the circumstances of the claim. Details are available from the SIPC online at <http://www.sipc.org>

17.2 The Investor may request the Company to provide information about the conditions governing compensation and the formalities which to be satisfied to obtain compensation.

18. Indemnity

18.1 The Investor will indemnify the Company against any liability, cost, expense, loss or any damage incurred by the Company (including but not limited to

professional advisors' fees) arising from the Investor's breach of this Agreement, negligence, wilful default or fraud.

18.2 The Company will not enforce this indemnity against the Investment Account if to do so would breach the Negative Balance Protection Obligation. However, were the situation to arise where to do so would breach the Negative Balance Protection Obligation, the Company has the right to terminate this Agreement and to pursue such legal remedies against the Investor in pursuit of this Indemnity as are appropriate in the circumstances.

19. Duration of the Investor Agreement

The Investor Agreement shall be effective from the day the Investor opens an Investor Account until its termination or default under clause 20.1 Termination and default below.

20.3 Communications to an e-mail address provided by the Investor to the Company shall be deemed to be communicated to the Investor and the Investor hereby accepts this.

21. Termination and Default

21.1 The Investor may terminate the Investor Agreement, for any reason, having provided a 15 (fifteen) Business Days' written notice by sending a notification specifying the termination date to info@candmassetmanagement.com provided only that there are no open positions traded through the relevant Investor Account and the Investor has no amounts due for payment to the Company.

21.2 The Company may terminate the Investor Agreement by giving the Investor at least 7 (seven) Business Days written notice, specifying the termination date.

21.3 The Company may terminate the Investor Agreement immediately, in the event of:

(ii) issue of an application, order, resolution or other announcement in relation to bankruptcy, insolvency, administration or winding-up proceedings of the Investor;

(iii) the Investor fails to make any payment due to the Company (provided that this does not apply to any sum that the Company provides in order to comply with the Negative Balance Protection Obligation until such time as the Investor and the Company have discussed how the Investor shall provide funding to address negative balance on the Investor Account in the longer term).

21.4 A termination of the Investor Agreement shall not imply that any of the Investor's responsibilities cease to exist; the Investor shall still be liable to pay to the Company:

(i) any amount that is due to the Company;

(ii) any expenses that are incurred by or charged to the Company, as a result of the termination of the Investor Agreement; and

(iii) any damage or loss that has arisen because of an arrangement or settlement.

21.5 Upon termination of the Investor Agreement under clause 20.1 or 20.2 above, the Company shall immediately transfer to the Investor via the Investor's Wallet any amount available in the relevant Investor Account minus any outstanding amount that is due to the Company by the Investor.

21.6 Where termination under clause 20.4 occurs, the Company reserves the right to reverse any transactions that are deemed to be contrary to the Company's interests, with the cost of such reversal being borne by the Investor.

(ii) If a Client has open positions, transfers are not permitted.

2.2 Any currency conversion shall be made real-time based on the rate displayed in the pop-up screen at the time the Client gives the relevant instruction. It is important to note that there may be a fluctuation (either positive or negative for the Client) to the currency conversion rate displayed in the pop-up screen and the rate used by the Company to execute the instruction; this is due to latency that arises during the time of pressing the button in order for the instruction to go through and the time of actual execution of the instruction.

2.3 All transfers are completed real-time.

2.4 Any deposit(s) or withdrawal(s) from the Wallet to the Client's bank or other account shall be processed according to section 9 of the Client Agreement.
